AAYUSH PATIDAR

Python Full Stack Developer

Indore, Madhya Pradesh | patidaraayush20@gmail.com | +91 9926500357 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building web applications in Python and Django, and a good understanding of SQL and MongoDB. Built and deployed two projects, an online auction platform and a farm management app. Currently doing full stack Python training and learning Generative AI. Enjoys writing clean code, debugging problems and picking up new tools quickly.

TECHNICAL SKILLS

Backend: Python, Django, OOP
Frontend: HTML, CSS, Bootstrap, JavaScript
Databases: SQL, MySQL, MongoDB
Libraries: NumPy, Pandas, Matplotlib
Tools & Deployment: Git, GitHub, VS Code, PyCharm, Jupyter Notebook, Vercel, Render
Learning: Generative AI, LLMs, Prompt Engineering, Agentic AI, Data Science

PROJECTS

Online Auction System | Python, Django, JavaScript, CSS, SQL

- Built an auction website where sellers create, edit and delete auctions and buyers place bids, with highest-bid tracking and bid history.
- Added user registration and secure login, with separate seller and buyer profiles and detailed auction pages.
- Developed the backend in Django with an admin-ready setup and a payment flow ready for Stripe, plus a responsive layout for mobile and desktop. Deployed live on Vercel and Render.

Smart Farmer | Python, Django, MySQL, Pandas, NumPy, HTML, CSS, Bootstrap, JavaScript

- Built a web app for farmers to record and manage crops (crop type, sowing and expected harvest dates, land area, soil type, irrigation, health images) with search and status filters.
- Added secure registration and login with separate Farmer and Admin roles.
- Built a weather dashboard showing live temperature, humidity, wind speed, rainfall and pressure for a location, with error handling for invalid locations.
- Created a soil health analysis (pH, N, P, K, moisture, organic matter) and a crop recommendation feature using Pandas and NumPy that ranks the top 5 suitable crops.
- Added a searchable crop disease database with symptoms, causes and treatments, and a market price search across locations.

INTERNSHIP & TRAINING

Full Stack Python Developer Training - Naresh IT, Hyderabad | Jul 2026 - Present

- Learning Python, Django, React.js and MySQL through hands-on front-end and backend application development.
- Practicing building and consuming REST APIs and CRUD operations in full-stack projects.
- Working on full-stack project exercises to apply what is taught in class and improve debugging skills.

SQL & Programming Intern - Universal Informatics | Jul 2025 - Aug 2025

- Completed an internship program with a focus on SQL and database fundamentals, along with C/C++ programming basics.

Python Programming Intern - YBI Foundation | Dec 2024 - Jan 2025

- Built Python scripts and console-based applications, using file handling to store and process data.
- Solved real-world problem statements, improving backend logic, debugging and problem-solving skills.

EDUCATION

B.Tech, Computer Science & Engineering | 2022 - 2026
Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore | CGPA: 6.78

HSC (Class XII) | 2022
Govt. Higher Secondary School, Mengaon | 75.4%

SSC (Class X) | 2020
Gayatri Shiksha Niketan Higher Secondary School, Khargone | 81.25%

CERTIFICATIONS

- Cloud Computing - NPTEL, IIT Kharagpur
- Soft Skill Development - NPTEL, IIT Kharagpur
- Exploring Artificial Intelligence - Adobe Learning Manager
